Contract Ceiling

General Scope:

This contract consists of mission critical **Design-Build** construction, repair, replacement, and installation projects on various facilities, including buildings, runways, airfields, taxiways, aprons, parking lots, and utilities across Whiteman Air Force Base (WAFB). Task orders vary in size and complexity and require a high degree of flexibility and adaptability on the part of Vazquez Reasbeck Construction (VRC) to guarantee an effective response. Mission critical aspects include **security & defense initiatives, protection of transportation systems, disruption of threats to installation, protection of critical infrastructure and key assets, disaster support response, and infrastructure construction support.**

Vazquez is partnered with Joint Venture partner, Reasbeck Construction, Inc. (RCI), for the duration of this contract through Vazquez Reasbeck Construction, LLC (VRC). VRC has been awarded and/or completed the following projects at WAFB:

FA462521D0002;T.O. 1001 - Force Support Squadron (FSS) Annex (WAFB)	Group-Up Design-Bid-Build project to build FSS annex and supporting infrastructure (e.g. curbs, sidewalks, parking lot, exterior lighting, etc.)
FA462521D0002;T.O. 1002 - Repair Surge Protection Devices in Multiple Facilities, Phase 1	Design-Build project to install, repair, and/or replace surge protection devices (SPDs) for 40 buildings/facilities at Whiteman AFB
FA462521D0002;T.O. 1003 - Repair Clarifiers at WWTP	Design-Build project to remove and replace clarifier mechanisms for north primary clarifier, west secondary clarifier, and east secondary clarifier at Wastewater Treatment Plant

Places of Performance: Whiteman Air Force Base, MO

Vazquez Commercial Contracting, a HUBZone certified Small Business with +1,000 completed federal projects, and Reasbeck Construction, a top performing U.S. Air Force contractor, entered a Joint Venture partnership in January 2019. VRC performs work across the state of Missouri and has the capacity to support and deliver emergency and routine construction services without interruption. The Joint Venture team employs personnel and owns/leases office space, warehouses, and equipment yards less than 6 miles from Whiteman AFB in *Warrensburg, MO*. Additional personnel and equipment are located in *Kansas City, MO (JV Home Office Location); Cincinnati, OH; Dayton, OH; Detroit, MI; Knoxville, TN; and Tampa, FL.*
