Contract Ceiling

## General Scope:

The contract consists of **Design/Build and Design/Bid/Build** construction and incidental scope for completion of construction. The scope includes new building construction, building or building systems renovation, structural repairs, site work, paving, and civil works (flood damage reduction, such as channel improvements, bank stabilization, levees, and floodwalls). Other activities incidental to the construction may include, building/facilities demolition/debris removal, utility installation/replacement, equipment upgrades, landscaping, geotechnical work, security systems, and environmental abatement of materials (i.e., materials containing lead, asbestos, Polychlorinated Biphenyls (PCBs) or Hazardous, Toxic, and Radioactive Waste (HTRW).

Vazquez is partnered with a Designer of Record (DOR) from Cincinnati, Elevar Design Group of Cincinnati. Vazquez and Elevar have the following labor categories accepted with approved hourly rates on the awarded contract:

Project Managers	Architects
Superintendents	Civil Engineers
CQC Mangers	Structural Engineers
Site Safety Health Officers	Electrical Engineers
Design Project Managers	Mechanical Engineers

**Places of Performance:** Buffalo, Chicago, Detroit, Huntington, Louisville, Nashville, and Pittsburgh USACE Districts

VCC maintains a \$3MM line of commercial credit, \$4MM in cash reserves, and bonding limits that demonstrate significant project success. VCC possesses all necessary land, buildings, and personnel to execute an average of 100 simultaneous projects. VCC's primary facilities are located in Kansas City, MO and Cincinnati, OH. These two primary facilities are home to nearly 80% of VCCs executive staff, operations, accounting, finance, material handlers, and large quantities of building materials, tools, trucks, and supplies. In addition, VCC leases offices in Detroit, Dayton, and Louisville with personnel and management teams spread across the Midwest and Heartland Regions.
